What makes Ferber special?

Ferber Elementary School's mission is: Every day our students will learn, grow and help others. For over 25 years, students in grades K – 6 have been receiving an academic-rich learning experience. Staff monitors student progress closely through collaboration with school personnel. This collaboration helps us support students learning and growth in a variety of settings. Our school has grown over the years and with that growth we have a more diverse student population. Students with multi-

ple disabilities are now part of our Ferber Family. Students' needs include Learning Disabilities, Emotional Disabilities, Speech and Language, Significant Developmental Delay, Autism and Other Health Impairments. Having such a diverse student body has helped our students grow as citizens.

We have incorporated a morning meeting into our school day. This meeting time proactively ensures our students social, developmental and psychological needs are being addressed. The skills taught during this time are based on what our

students need and provide a soft landing for them each day as they arrive at school.

Ferber continues to seek ways to address the ever changing needs of all of our students. It is only through a strong parent-teacher partnership that we are able to be successful.

The Ferber community is strong and we will continue to provide what children need to become successful and productive members of our society.
